

◦ It was interesting to see how he played different characters.

◦ Also, it was nice to see a form of Japanese art.

I really enjoyed Sensei's Ryūkyū Seiwa performance. Mostly, because it is part of the Japanese culture and we got an insight. Unfortunately, I am not speaking Japanese so I would not go to Yose. But this class made it happen, to experience it.

Today's class was very interesting. It was my first time to be introduced to 'Kobanashi'. I liked watching the performances and how the simplicity can convey a story.

It was very enjoyable and easy to listen to. I loved learning more about this part of Japanese culture.

I enjoyed imagining the stories in my mind, the atmosphere completely transformed as the performance began.

Ryuichi Sekine sensei is very good and talented in performing rakugo. Through his rakugo performance, I truly enable ~~to imagine~~ ^{to} have a clear imagination about the kobanashi. I am interested in rakugo and kobanashi after listening to his lesson and performance. Hope to learn more about this culture!

Kobanashi is ~~interesting~~ like telling short jokes but in a more interesting way. When listening to Rakugo, I can imagine the scenes in my mind, making it very interactive. Both is new to me and I ~~think~~ think it was very fun.

I really liked today's class, it was very fun and interesting to watch all the performances from Sekine sensei and my classmates. I really enjoyed learning about kobanashi because it helped me to understand Japanese culture a bit more. Sekine sensei was very entertaining and interesting, and I really liked the way he performed. 😊

I am very happy to have listen to Shinigami finally. I had known about it since a while but thanks to you I could listen to and understand Shinigami entirely. I loved your performance! Thank you.

Thank you for today. It was very interesting to learn about Japanese culture and art.

I enjoyed looking at the performance. It was so calm but I refocused my attention at all time.
